Thank you for purchasing this ©American Audio® product. For your convenience this products ready to be used, there is no assembly required. Please read the following instructions before installing or using your new unit.

Operating Instructions:

The ©American Audio® PDP-850™ Power Distribution Panel features include: The PDP-850™ features 7 protected switched A/C grounded outlets on the rear of the unit, & 1 A/C unswitched outlet on the rear of the unit, 1 A/C outlet switched on the front panel, 15 amps per outlet/20A protection breaker switch on the front panel, master on/off switch, 1 USB connection port for DJ work light, and dual pop-out lights with dim control knob; great for lighting up DJ control booths. The PDP-850™ eliminates wires in mobile racks, control booths, or studios. For night club, studios, and mobile DJ's where power distribution is a concern. Single space 19" rack amount.

NOTICE: When pop-up lights are not in use make sure dim control knob is all the way off.
